IMPORTANT SAFETY INFORMATION INCLUDING BOXED WARNING AND INDICATION

Indication: What is Osphena?

Osphena is a prescription oral pill that treats: • moderate to severe painful intercourse, • moderate to severe vaginal dryness, symptoms of changes in and around your vagina, due to menopause.

Most Important Information you should know about Osphena

WARNING: ENDOMETRIAL CANCER and CARDIOVASCULAR DISORDERS

Osphena works like estrogen in the lining of the uterus (endometrium), but can work differently in other parts of the body. Taking estrogen alone or Osphena may increase your chance for getting cancer of the lining of the uterus. Vaginal bleeding after menopause may be a warning sign of cancer of the lining of the uterus. Your healthcare provider should check any unusual vaginal bleeding to find out the cause, so tell him or her right away if this happens while you are using Osphena.

Osphena may increase your chances of having a stroke or blood clots.

You and your healthcare provider should talk regularly about whether you still need treatment with Osphena.

Call your healthcare provider right away if you have unusual vaginal bleeding, changes in vision or speech, sudden new severe headaches, and pains in your chest or legs with or without shortness of breath, weakness and fatigue.

Who should not take OSPHENA?

Osphena should not be used if you have unusual vaginal bleeding, have or have had certain types of cancers (including cancer of the breast or uterus), have or have had blood clots, had a stroke or heart attack, have severe liver problems, are allergic to Osphena or any of its ingredients, or think you may be pregnant. Tell your healthcare provider if you are going to have surgery or will be on bed rest.

POSSIBLE SIDE EFFECTS

Serious but less common side effects can include:

- stroke • blood clots • cancer of the lining of the uterus

Less serious, but common side effects include:

- hot flushes or flashes
- headache
- heavy vaginal bleeding (vaginal hemorrhage)
- vaginal discharge
- excessive sweating (hyperhidrosis)
- night sweats
- muscle spasms

Tell your healthcare provider about all of the medicines and supplements you take, as some medicines may affect how Osphena works. Osphena may also affect how other medicines work.

Duchesnay USA encourages you to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.

Please read accompanying [Important Safety Information](#), including [Boxed Warning](#) in the [U.S. Full Prescribing Information](#).

TERMS AND CONDITIONS

These savings offers are not available to individuals enrolled in Medicare, Medicaid, TRICARE or any other federal or state healthcare plan. Federal law prohibits the selling, purchasing, trading, or counterfeiting of this offer. Such activities may result in imprisonment of 10 years, fines of \$250,000, or both. May not be accepted at all pharmacies. These offers are only good in the United States. Duchesnay USA reserves the right to rescind, revoke, or amend this offer without notice at any time. Patients and pharmacies are responsible for disclosing to insurance carriers the redemption and value of the co-pay and complying with any other conditions imposed by insurance carriers or third-party payers. The value of these offers is not contingent on any prior or future purchases. The offer is solely intended to reduce the patient out-of-pocket expense for the purchase of Osphena® to as little as \$35. The patient expense estimate is based on an average prescription filled by patients with prescription coverage. Use of this offer for any one purchase does not obligate the patient to make future purchases of Osphena® or any other product. Void where prohibited by law.

TERMS AND CONDITIONS for Medicare Part D patients who choose to pay cash:

Medicare Part D patients who elect to operate outside the Medicare Part D benefit and pay cash may not file a claim or have a third party file a claim for reimbursement under the Medicare Part D program. The payment does not constitute payment towards the Total Out-of-Pocket (TrOOP) costs threshold under the Medicare Part D program.
